PRESS RELEASE

Kreon Technologies unveils a redesigned website to enhance user experience and highlight advanced 3D measurement solutions.

Kreon Technologies specialises in 3D measurement solutions is thrilled to announce the launch of its newly redesigned website, kreon3d.com. This significant update reflects our ongoing commitment to offering an improved user experience with intuitive navigation and boosting access to Kreon's innovative products.

Press contact: Céline Darthou - cdarthou@kreon3d.com
KREON Technologies
ESTER Technopole – 19 rue Columbia
87068 Limoges cedex 3

Tél : +33 555 42 80 40
www.kreon3d.com

The new web layout aims to provide an accessible portal across all devices (mobile, desktop, tablets) enabling engineers, manufacturers, and metrology professionals to select the best-tailored solutions for their needs.

The new website features:

- ▶ Enhanced user interface: streamlined design for ensuring easier product information and support access.
- ▶ Comprehensive product information: detailed descriptions and specifications of Kreon measurement equipment including industrial 3D scanners, measuring arms, metrology-grade software Zenith and automatised integration options on Coordinate Measuring Machines (CMMs).
- ▶ Showcasing professional insights: demonstrating customer case studies of Kreon products performing quality control, 3D inspection, reverse engineering and many other applications across various industries, such as aeronautics and automotive.
- ▶ Educational resources and interactive media: in-depth articles to foster knowledge on various metrology topics with engaging videos to demonstrate product capabilities and user benefits.

About Kreon

Kreon Technologies is a French manufacturer of 3D measurement solutions. Its range of products, resulting from nearly 30 years of experience and significant R&D, meets varied applications and is used in many industrial sectors for its performance and reliability. A pioneer in contactless solutions, Kreon offers a wide range of 3D scanners (Skyline, Zephyr III, Solano), for use on measuring arms (Onyx arm, Ace arm) or CMMs. Its product catalog also includes measuring and scanning arms (Kreon Ace).

Visit kreon3d.com to explore Kreon Technologies' full range of products and services.
